## Retrotec resources for superior training!

At Retrotec, we do more than manufacture innovative duct testing and blower door equipment. We've pioneered fast, effective training methods that help trainees absorb more information, along with cutting-edge resources that make a trainer's job easier.

### Universal training

To improve industry practices, brand-neutral training materials are necessary to properly prepare trainees for what they will find in the field. Retrotec has developed universal online modules and webinars that:

- Demonstrate principles with easy to understand graphics
- Use a range of manufacturer's QuickGuides to facilitate set-up
- Provide practical, hands-on experience
- Reinforce trainee skills during training with verification exercises

***To register for our online training email us at [training@retrotec.com](mailto:training@retrotec.com)  
or check us out online at [retrotec.com](http://retrotec.com) for additional  
resources, articles and forums.***

## Services that go above and beyond

### We develop what you need

Feedback from Retrotec's on-going webinars drives our training modules and lets us customize product development. Through assessing instructors' needs, our training programs continually fill in knowledge gaps by familiarizing trainers with the latest developments.

### Training Simulators for hands-on experience

To support training institutions, Retrotec has developed in-classroom training simulators that take up very little space but provide:

- Effective, hands-on training that ensures trainees retain more knowledge
- Fast, practical experience for trainees
- A great resource for trainer demonstrations

*To improve training communication,  
we now offer quick guides in both  
English and Spanish*
